

Fantabulous Gal #33
What The Deck
Written by: Melanie Hunter

INT. FANTABULOUS GAL'S APARTMENT

Fantabulous Gal is all fancied up. Captain Euchre is still in his hospital gown, immobile and drooling, sitting in a [wheelchair](#). He's wearing Fantabulous Gal's yellow wig - she's * combing it out. In one hand, Captain Euchre stiffly holds a Fantabulous Gal action figure, in the other is a can filled with pens.

FANTABULOUS GAL
(to Captain Euchre)
This wig looks great on everyone!
(to the camera)
Watch this.

She pulls out the euchre cards and waves them in front of Captain Euchre. They spark as they come close to his face.

CAPTAIN EUCHRE
More euchre...

FANTABULOUS GAL
I think that these euchre cards are helping Captain Euchre. If ninjas weren't missing, we could find the rest of Captain Euchre's euchre cards... I need ninjas to find my ninjas. Where do I find ninja-finding ninjas? I'll ask Rokuro. If we had all the euchre cards, he'd be back to being his good ol' Captain Euchre self in no time! But who would have taken his cards away? What evil mastermind, or minds, would know that removing Captain Euchre's euchre cards from him would render him a vegetable? I have got to get the rest of these cards...

She turns to Captain Euchre and spoons baby food into his mouth, using a euchre card as a spoon. Captain Euchre is grinning like an idiot.

CAPTAIN EUCHRE
Good foo -

FANTABULOUS GAL
I don't know if he likes it or just has gas. Oh sugar!

FANTABULOUS GAL (CONT'D)

I forget which of these Captain Euchre
euchre cards is the one that helps his
digestive tract? I really ought to write
this down...

She starts writing as she speaks. She's trying different cards.
As she ties each one...

FANTABULOUS GAL (CONT'D)

Left euchre bower in mouth...

(the Captain burps)

...results. Right euchre bower in
mouth...

(the Captain farts)

...results. Ace to mouth, oh he likes it!
That's surprising. Now all I've got to do
is wait, watch and record the eventual...
er well, FabG, there's no need to be
squeemish. We all do it. I need to try
different Euchre cards and record his
water potatoes.

(noticing:)

Oh, fiddlesticks! We're out of Depends!

She picks up a ShamWow and reads the box.

FANTABULOUS GAL (CONT'D)

Holds twelve times its weight in liquids.
What about solids?
